

QUALITY MANAGER AUTOMOTIVE - E-MOBILITY

Who we are?

StarPower Europe is the European branch of the Chinese **StarPower Semiconductor Ltd**, a leading company in the design and manufacture of standard and customized IGBT/MOSFET modules, for applications in the areas of inverters, motor drives, welding machines, inductive heating, UPS, EV and renewable energies. With offices in Nuremberg, Germany and Cadenazzo, Switzerland, we are well placed to meet the growing needs of the European market.

Your Job

- Work with StarPower Headquarters in China
- Quarterly visits to China and close exchange with Chinese colleagues.
- Lead customer-driven quality development projects both nationally and internationally
- Develop concepts and measures to ensure quality-related customer requirements are met from project initiation to SOP
- Be point of contact for all European quality management queries
- Coordinate and support customer audits at our production site in China
- Record all customer-relevant Quality Management themes via international databases, customer B2B portals and statistical evaluations.
- Define specific measures within the StarPower team to ensure optimal delivery conditions at production sites

Your profile

- Minimum 5 years' experience in a comparable position, preferably within a large industrial or automotive industry leader
- Masters's level degree in Engineering or equivalent
- Fluent in English (knowledge of a Chinese language an advantage)
- Ability to work independently
- Preparedness to travel across Europe and to China

Our offer

- Be part of a fast-paced and growing industry
- Competitive Salary and Bonus Scheme
- Company car
- Remote working/Home Office
- Flexible working hours and self-led workflow

For any questions regarding your application, please contact Christian Kroneder, R&D Director StarPower Europe on christian.kroneder@starpowereurope.com

We look forward to hearing from you!
